

Electrical Testing and Inspection

Our unrivalled knowledge and expertise in electrical testing and inspecting means we are trusted by a wide range of individuals and corporations for all their testing requirements. We use the latest leading test equipment incorporating blue tooth technology and latest software to make sure all your wiring is tested to the highest standard and fully compliant with the latest regulations. We can also test and certify emergency lighting.

We then issue an NICEIC test report and test schedule with prioritised recommendations with budget costs.

Our clients include;

- Private Landlords
- Estate agents / Letting Agents
- Schools
- Pharmaceutical companies
- Building sites / site huts
- Large and small industrial or commercial units
- Local and Public Authorities
- Emergency Services
